

Dean's Grants for Student Research

I. Purpose and Criteria

The Dean has established grants for scholarly and creative activity for undergraduate or graduate students of the Tyler School of Art. Grants will be made in amounts from \$200 to \$1000. [The application form appears on page 4 of this document.]

The mission of the Dean's Grants for Student Research is to create opportunities for outstanding achievement by providing funds to realize ambitious goals and support opportunities for Tyler students' work to be seen in the larger contexts of their profession.

Students may apply for these grants to defray scholarly or creative costs associated with (but not limited to):

- Travel to create/install an exhibition or performance or scholarly paper, or to collect data for research-documentation of the invitation to exhibit, perform, present, etc. must be provided as part of the proposal
- Registration for conferences (but only where one is presenting or part of a panel discussion and one must provide confirmed invitations)
- Technical personnel or services (for example, to help with technology for an installation or to document an exhibition, or with editing, fabrication, etc.)
- *Consumable materials required for the creation of special projects, performances or installations

The following items are ineligible for grant funding:

- *Durable equipment (cameras, software, computers, hardware, machinery or peripherals, or any equipment that is not considered consumable material)
- *Attending a residency or other travel program, either credit bearing or non-credit bearing
- *Attending a conference where one is not presenting
- The grant is not to be applied toward tuition, housing costs, or other expenses normally incurred in the pursuit of a degree.
- The grant may not be used to complete a course requirement (e.g. a final paper, thesis or senior exhibition, final project, senior project or thesis project).
- Grants may not be used to pay stipends to other full-time Temple employees, full-time Teaching Assistants, Academic Interns, or non-College collaborators.

"
"

Students who are receiving other grants or funding that will partially fund the project must disclose this funding as part of the proposal.

"
"
