Tyler Art Start is a unique full scholarship pre-college program for talented Philadelphia high school students entering 11th and 12th grades. Creatively driven students are nominated by their teachers and guidance counselors for admission into the program. In order to ensure the continued safety of all of our students, faculty and staff, we have decided to postpone the summer 2020 Art Start program to the fall 2020 semester.

Art Start is intended to broaden students’ horizons by offering them the challenging and meaningful experience of studying art with other young artists at Temple University. Tyler School of Art and Architecture is proud to provide this extracurricular opportunity for students to continue to develop their creative abilities. Classes are taught by dedicated faculty, and provide students with an immersive studio art experience. All media and materials are provided for students.

Art Start allows students to explore new media and interests, develop technical skills, discover creative career paths, and experience college-level classes. Held in Tyler’s renowned studio facilities, Art Start includes classes in 2D and 3D art. Participants in the program explore a variety of drawing mediums, as they expand their grasp of the importance of drawing from direct observation. They also work with both conventional and non-conventional materials while investigating sculptural methods and forms.
